2010 Business Tax Symposium

Are you a business owner in Colorado, an out-of-state business selling/delivering tangible property to purchasers located in Colorado, or are you just interested in learning more about sales/use tax laws in Colorado? Do you prepare sales and/or use tax returns for business owners in Colorado? If you answered "yes" to any of these questions, you won't want to miss this one-day tax symposium.

Representatives from several home-rule cities and the state combine forces to provide information surrounding tax laws applicable to their jurisdictions. Even if you are not physically located in these jurisdictions, you may be establishing a nexus, or business presence in these jurisdictions, which means you might be required to collect taxes on your sales transactions.

Finally, one of the largest myths surrounding the collection of sales taxes when selling over the Internet is that sales taxes do not apply to these transactions. Find out how to handle these sales transactions and much more at this symposium, which is the first of its kind!
